

BOYD ANNOUNCES FEDERAL STIMULUS DOLLARS FOR MARIANNA FIRE TRUCK

WASHINGTON, D.C. – U.S. Congressman Allen Boyd (D-North Florida) today announced that the City of Marianna is scheduled to receive \$316,000 in federal stimulus dollars to finance the purchase of two new fire trucks. Specifically, this funding will be used to purchase a 1000 gallon capacity fire truck and a new brush/rescue truck.

“With these stimulus dollars, the City of Mariana will be able to purchase two new fire trucks, which will improve emergency response time and upgrade aging equipment,” said Congressman Boyd. “I am extremely pleased we are seeing these stimulus dollars at work here in North Florida for the safety and benefit of the community.”

The City of Marianna will receive a stimulus grant of \$100,000 and a low-interest loan of \$216,000 to purchase the fire engine. This funding was made available under the American Recovery and Reinvestment Act, which was recently signed into law with Congressman Boyd’s support.
